Why you like living and working in the 570:

I enjoy living in the 570 because my family is here and it's "home" to me. I love knowing that my great ancestors came from Italy and started their families here. I have a close bond here knowing that and even if I do move away; I know that this will always be my home.

I enjoy working in the 570 because things are always changing and evolving. I enjoy the fast pace of my job and being downtown. The days are never the same and being at the location we are at, it's amazing to watch the reconstruction of the 500 block of Lackawanna and other surrounding projects.

How can young professionals help improve the area?:

Without young professionals, there really is no future. We learn what we can from the pros, and build from there. Growing, working, and enriching the region together makes a small, growing city like Scranton what it is becoming today.
