## **Why you like living and working in the 570:**

One word...renaissance. Growing up in Greater Scranton I have seen this area evolve into a bustling hub of economic and cultural activity. The enthusiasm and pride that you hear in the voices of Scrantonians speaks volumes as to the current potential and opportunity here. Scranton's high quality of life combined with a superior educational system and lower cost of living is the foundation on which I have made the decision to raise my family here.

## **How can young professionals help improve the area?:**

The first step would be to educate yourself about the assets of the community. Take that knowledge, combine it with your interests and then seek ways to get involved. If you have a passion for the work that you do, whether it is professionally or through volunteer opportunities that will resonate with others and help to maintain the excitement that currently surrounds the Electric City.
