Why you like living and working in the 570:

I enjoy living and working in the 570 because we are in an area that is being economically re-born. I have enjoyed working in the Scranton market area for the last 10 years and have seen many of the positive changes that have taken place. I am also looking forward to seeing what the future has in store for us and being a part of it.

How can young professionals help improve the area?:

Young Professionals need to stay connected in our communities by networking with other professionals and simply just "getting involved." POWER! is a great way for us to get together and hear and talk about how we can continue to make our communities a better place to LIVE, WORK & PLAY!
